Architect – Stevenson Studio Ltd

LOCATION

Manchester

Project Description

A beautiful, historic, former mill in the ‘Northern Quarter’ of Manchester. The four storey, stylish conversion is in a Grade II listed building will be used by Boss Model Agency as their Manchester headquarters.

Key Facts

There is a large original timber hoist that forms part of the roof trusses that will be incorporated into the design.

Many original features are being maintained and brought back to life. Balconies are being incorporated into the design and each floor will house a huge open plan space. There will be central cast iron columns and timber flooring throughout
