#### **Project Description**

Alderley Park is a world-class life science research and development facility, set in 400 acres of parkland, providing 1.5 million sq ft of premier scientific laboratory office and conferencing space.

#### **Key Facts**

Booth King is providing civil and structural engineering design for Mereside, the first phase of this fantastic project. Mereside will include 45,000 sq m of new high quality employment floorspace and refurbished CTL building with improved entrance, atrium, café and courtyard.
